# Markets recoil for 5th day

## SENSEX SLUMPS 536 PTS AMID GLOBAL SELL-OFF

PTI ■ MUMBAI

Equity indices nosedived for the fifth straight session on Thursday as investors took money off the table amid foreign fund outflows and heavy selling in global markets.

Participants also preferred to remain in a risk-averse mode ahead of the Union Budget next week, traders said.

The 30-share BSE SENSEX slumped 535.57 points or 1.13 per cent to finish at 46,874.36.

Similarly, the broader NSE Nifty tumbled 149.95 points or 1.07 per cent to 13,817.55.

The SENSEX has now lost 2,917.76 points in five days, while the Nifty has retreated 827.15 points.

HUL was the top loser in the SENSEX pack on Thursday, shedding 3.65 per cent, fol-

lowed by Maruti, HDFC Bank, PowerGrid, Kotak Bank, IndusInd Bank, HCL Tech and Bajaj Finserv.

On the other hand, Axis Bank, SBI, ONGC, ICICI Bank and UltraTech Cement were among the gainers, jumping up to 6.16 per cent.

On the global front, Wall Street posted its biggest one-day percentage drop in three months amid a wave of profit-taking, even as the US Fed left the benchmark interest rate unchanged near zero and vowed to maintain its bond buying program.

Asian and European bourses too wilted under selling pressure amid unabated rise in COVID-19 cases.

"Market turned cautious after the unidirectional upside of the last 10 months due to

ambiguity ahead of the Budget and profit booking in the global market due to over-enthusiasm.

"Global risk parameters increased despite the US Fed maintaining its supportive policy, due to high speculation in the equity market and likely drop in fiscal and monetary liquidity in the future," said Vinod Nair, Head of Research at Geojit Financial Services.

BSE Realty, IT, FMCG, tech, auto and healthcare indices lost up to 2.07 per cent, while oil and gas, telecom, bankex and consumer durables managed to close in the green.

The broader BSE midcap and smallcap indices slipped up to 0.46 per cent.

According to traders, recent foreign fund outflows from the domestic capital markets are also weighing on market momentum.

Foreign portfolio investors (FPIs) offloaded shares worth

₹ snaps 6-day winning run, skids 13 paise to 73.05 against \$

PTI ■ MUMBAI

Snapping its six-session rising streak, the rupee depreciated by 13 paise to end at 73.05 against the US dollar on Thursday, tracking muted domestic equities and a strengthening American currency overseas.

Foreign fund outflows and a sell-off in global markets also weighed on the local unit, forex traders said.

a net Rs 1,688.22 crore on Wednesday, according to provisional exchange data.

## NPCI let WhatsApp go live on UPI after full compliance: RBI to SC

IANs ■ NEW DELHI

The Reserve Bank of India has told the Supreme Court that the National Payment Corporation of India (NPCI) allowed WhatsApp to "go live" on UPI only after ensuring it was fully compliant with its circular. The central bank also stressed the onus is on the NPCI to respond on the status of compliance of WhatsApp, Google and Amazon with the system rules/procedural guidelines governing the Unified Payments Interface (UPI).

In an affidavit, the RBI said: "NPCI is the system provider of UPI and, therefore, comes under the regulatory radar of the RBI. Since it was NPCI that allowed Amazon, Google and WhatsApp to operate under UPI, the responsibility to ensure that these entities comply with all the

rules/regulations/guidelines governing UPI lies with the NPCI."

The RBI added that the NPCI was advised not to permit full scale operations of WhatsApp till the time they are fully compliant with the requirements of the RBI directions. "NPCI subsequently allowed 'go live' of WhatsApp on UPI only after ensuring that WhatsApp was fully compliant with the circular," it said in the affidavit.

The RBI issued directions through a circular on April 6, 2018 on storage of payment system data and not data sharing or privacy. It said it has not issued any instructions on data sharing by Third-Party App Providers (TPAPs) or the participants of UPI, and matters related to data privacy and data sharing come under the domain of the Centre.

## India's rank slips to 86th in corruption perception index

PTI ■ NEW DELHI

India's rank has slipped six places to 86th among 180 countries in a corruption perception index (CPI) in 2020.

For 2020, Transparency International (TI)'s corruption perception index was released on Thursday.

The index, which ranks 180 countries and territories by their perceived levels of public sector corruption according to experts and business people, uses a scale of 0 to 100, where 0 is highly corrupt and 100 is very clean.

India's rank is 86 out of 180 nations with a score of 40.

"India was ranked at 80th position out of 180 countries in 2019. The CPI score for India is constant this year as well as the previous year's score," the

**This year, New Zealand and Denmark were ranked at first position with scores of 88**

index said.

India is still very low on corruption Index, the report said, noting that experts feel the CPI does not reflect the actual corruption level in any country. The integrity score determines the corruption situation of a country.

This year, New Zealand and Denmark were ranked at first position with scores of 88. Somalia and South Sudan were ranked lowest at 179th position with scores of 12.

## Centre's market borrowings to remain at elevated levels in FY22

New Delhi: Centre's FY22 market borrowings are expected to remain at an elevated level, even as external deficit financing is set to increase, India Ratings and Research (Ind-Ra) has said. Accordingly, the ratings agency expects the gross market borrowings of the Central Govt to be ₹10.82 trillion and net market borrowings to be ₹9.02 trillion in FY22. In FY21 (April-November), the Central government has already borrowed ₹12.16 trillion against its revised borrowing target of ₹12 trillion.

"The accommodative monetary policy stance, weak corporate sector demand, excess banking sector liquidity, higher savings especially by households, and higher external financing (mainly borrowing from multilateral institutions such as the World Bank) helped the government to fund its deficit smoothly and reduce pressure on domestic interest rates," the report said.

At present, India does not finance its deficit by raising sovereign bonds, it borrows from multilateral donor agencies to benefit from a long tenor and low cost.

## Airtel says network 5G ready

**Demonstrates live 5G service over commercial network in Hyd**

PTI ■ NEW DELHI

Bharti Airtel on Thursday said its network is 5G ready now as the telco successfully demonstrated live fifth generation service - with ultra high speeds - over a commercial network in Hyderabad city.

The move assumes significance as telcos are gearing up to leverage 5G as the next frontier for future growth to bolster revenues and provide stronger customer

experience.

While the latest demonstration underscores the company's technology capabilities for rolling out of fifth generation services in future,

Airtel said the actual impact of 5G experience will be available to customers, "when adequate spectrum is available and government approvals are received". For the demo run, the company leveraged existing liberalised spectrum in the 1800 MHz band.

"In many ways now, it is a flick of a button to turn on 5G. It is important that we get the right 5G experience for which adequate spectrum in the right bands need to be made available.

"Today, we have conclu-

sively demonstrated that as far as Airtel is concerned, we are 5G ready," Bharti Airtel MD and CEO Gopal Vittal said at a virtual conference.

The company said Airtel 5G is capable of delivering 10x speeds, 10x latency and 100x concurrency when compared to existing technologies. Specifically, in Hyderabad, users were able to download a full length movie in a matter of seconds on a 5G phone.

Using dynamic spectrum sharing, Airtel seamlessly operated 5G and 4G concurrently within the same spectrum block. The company said its demonstration has validated the 5G readiness of Airtel's network across all domains -- radio, core and transport.

## 84% Indian consumers feel AI drives better customer experience

New Delhi: About 84 per cent Indian consumers agree that Artificial Intelligence (AI) has the potential to provide better customer experience, improve brand reputation, and increase customer loyalty, a study revealed on Thursday.

According to software company Pegasystems, the study surveyed over 1,000 consumers in India on their views about AI as it relates to morality, ethical behaviour and empathy.

Indian consumers generally trust new technologies like AI if they see the potential to improve their productivity and

make things simpler. But at the same time, respondents still worry about the ethics behind AI and the potential for it to act with bias, the company said in a statement. The study also indicated that almost 78% are comfortable interacting with AI for business-related queries.

"This presents an important opportunity for Indian companies to accelerate their AI adoption -- particularly as the pandemic forces them to increase their digital engagement capabilities," Suman Reddy, Managing Director, Pegasystems India, said in a statement.

## FDI in Nov 2020 increased to USD 8.51 bn

PTI ■ NEW DELHI

Foreign direct investment (FDI) into the country jumped to USD 8.51 billion in November 2020 from USD 2.8 billion in the same month of 2019, according to the Commerce and Industry Ministry data.

Total FDI, including re-invested earnings and other capital, during the month under review grew by 81 per cent to USD 10.15 billion.

The data also showed that FDI grew by 37 per cent to USD 43.85 billion during April-November 2020.

## GAIL Gas awarded as 'City Gas Distribution-Established Company of the Year' by FIPI

New Delhi: GAIL Gas Limited has been awarded the 'City Gas Distribution - Established Company of the Year' by Federation of Indian Petroleum Industry (FIPI). The award was given by Hon'ble Union Minister of Petroleum & Natural Gas and Steel, Shri Dharmendra Pradhan to Chairman & Managing Director, GAIL Shri Manoj Jain and Chief Executive Officer, GAIL Gas Shri M.V. Ravi Someswarudu at the FIPI

Oil & Gas Industry Annual Awards 2020 ceremony held here.

The award recognises leadership in performance by operating City Gas Distribution

network for distribution of Natural Gas to consumers in the domestic, industrial, transport and commercial sectors in a Geographical Area (GA) in India during the year of award.

## IndiGo's sequential Q3FY21 net loss narrows to ₹620 cr

IANs ■ NEW DELHI

Airline major IndiGo's net loss narrowed during the third quarter of FY21 on a sequential basis.

Accordingly, InterGlobe Aviation, which runs the airline, reported a quarterly net loss of ₹620.1 crore from a net loss of ₹1,194.8 crore posted during the second quarter of 2020-21.

The airline had reported a net profit of Rs 496 crore during the Q3FY20.

Besides, the company said the capacity for the quarter was down by 40.8 per cent compared to the same period last year.

The 'Revenue from Operations' declined by 50.6 per cent to ₹4,910 crore for the quarter compared to the same period last year.

## IDBI Bank posts Q3 net profit of ₹378 cr as NII grows

Mumbai: Life Insurance Corporation - owned IDBI Bank reported a standalone net profit of ₹378 crore for December quarter 2020-21 on the back of healthy growth in interest income. The lender, which is under the Reserve Bank of India's prompt corrective action (PCA) since May 2017, had reported a standalone net loss of ₹5,763 crore in the year-ago quarter.

## Issues raised over Delhi Govt's new excise policy

PNS ■ NEW DELHI

India's top liquor manufacturers have raised strong objections to the new excise policy recommendations prepared by an expert committee and warned that it would lead to monopoly of a few companies, mainly MNCs, and will bring in cartelisation besides hitting Delhi Government's revenues.

In a joint representation to Delhi Chief Minister Arvind Kejriwal, the four major Indian players have opposed any change in free pricing criteria besides raising red flag over the proposed change in registration of brands, which claimed was "extremely unfair, one-sided and violative of principles of free competition".
